

Class: 3B      Name : Chan Yu Jing, Kaniel

Topic : David's birthday

On a sunny Saturday, Mabel and Justin want to celebrate David's birthday.

Justin and Mabel go to Fun Toy Shop and have a look. They see a toy car, a toy duck, a teddy bear and a toy robot. They ask, 'How much is a teddy bear?' The shopkeeper replies, 'It's forty-five dollars.' 'How about the toy car?' Justin and Mabel ask. The shopkeeper says, 'It's fifty-five dollars.' However, they don't have enough money to buy.

Suddenly, Justin's mum comes and says, 'I have a discount coupon. We can have ten dollars off our bill.' It is forty-five dollars now.' Justin and Mabel can buy the toy car. They feel happy.
