Topic : I had a dream

Today, Sally and Kevin were talking about their dream jobs.

Sally asked Kevin, 'What do you want to be when you grow up?' Kevin replied 'I want to be an astronaut when I grow up. If I become an astronaut, I will walk on the moon.'

Kevin had a good dream that night. He dreamt of walking on the moon. He was happy in the dream. He went exploring on the moon.

Then, he saw an alien. The alien saw Kevin and started chasing Kevin. Kevin was scared and ran for his life. Then, he woke up and realized that he had a nightmare. He was relieved that the alien was

not real. He then reconsidered being a teacher rather than being an astronaut because it is safer.
