Sally asked Kevin at school one day, 'What do you want to be when you grow up?' Kevin said, 'I want to be an astronaut when I grow up. If I become an astronaut, I will walk on the moon.'

That night Kevin had a dream. He dreamt he was an astronaut. He walked on the moon and he saw so many planets. Suddenly, he saw an alien. The alien chased him and he was so scared. He ran so fast to stay away from the alien. He could run very fast at the gym but he ran even faster on the moon so that the alien could not catch him.

When Kevin woke up, he learnt he had to be strong to be an astronaut. He now does a lot of exercise so that he can be a strong man when he

grows up.
