Growing up

Timmy will be promoted to secondary school in September, 2022. His parents are looking for some secondary schools for Timmy to interview at so he starts to think about what he wants to be when he grows up. He has a few ideas.

His dad is a hockey player. Timmy wants to be a hockey player like his dad. If he becomes a hockey player, he needs to do a lot of training.

He also wants to be a writer because he loves reading exciting detective stories. If he becomes a writer, he can write more detective or adventure stories. He wants to be an architect too because he thinks our living space is not enough to live. If he becomes an architect, he can design a big house and make everyone lives happily.

Finally, if he needs to choose one job, he will become an architect because he can design a big house.
