## A toy plane

15<sup>th</sup> June 20XX (Sunday)

Sunny

Dear Diary,

This morning, I went to the park with my friend Sharon. After arriving at the park, I told Sharon, 'Let us play with my new toy plane.' Then we played with my new toy plane. I used the remote to control the toy plane and it flew to the small fountain. After that, Sharon said, 'Your plane is flying so fast, it looks interesting. Can you lend it to me to play?' I said, 'OK, after I play with it, I'll give it to you.' Right after that, the plane suddenly turned the corner, it flew towards an old lady. The plane was too fast, so it was about to hit her and I tried to control the plane to pass by the old lady, but it was out of control, everyone felt nervous and scared.

Fortunately, the toy plane was out of power at this time so it stopped in time, and fell down. Luckily, it didn't hit her.

After the toy plane stopped and fell, I walked towards the lady and said, 'Sorry, my plane almost hit you, are you okay?' She said, 'I'm okay, be careful next time when you play with toys.' She left afterwards. Sharon and I also went home. I thought I should find an open area with fewer people so that there will be no more accidents next time.
