## David's Birthday

Today is the second of November. Mabel and Justin are playing at home. Mabel looks at the calendar and discovers today is David's birthday. They want to buy a birthday gift for him.

They go to Fun Toy Shop to buy a birthday gift. 'How much is the toy car?' asks Mabel. The shopkeeper replies, 'It's fifty-five dollars.' 'Oh no! I don't have enough money!' cried Justin. Then, Mabel asks again, 'How much is the toy robot?' 'It's fifty dollars,' answers the shopkeeper. Justin says, 'Let's buy the toy robot instead.'

In the end, they buy the toy robot and give it to David. David feels pleased.
